"Never delegate understanding."

work

Sept 2020 - Dec 2020 **JUNIOR SOFTWARE DEVELOPER** *Vista Medical, Ltd.*

TypeScript, React, Material UI

- Used TypeScript to implement a variety of new features to existing applications including:
 - Building a metronome component from scratch.
 - Finding ways to reinterpret existing data to determine new statistics.
- Assisted in fixing bugs before applications were released.
- Worked closely with another Developer to redesign the current website.

Apr 2013 - Sept 2019 **PACKAGE HANDLER** *UPS Canada*

- Filled a variety of different positions within the company often switching between them at a moments notice
- Coordinating group projects with solo ones so that the goals were reached synchronously

education

Online course through edX

2014 - 2018 **HISTORY** *University of Manitoba*
Incomplete

projects

April 2020 **WEBSITE** *Sage Journey*
Freelance

HTML, PHP, Bootstrap

Using the skills that I learned at Red River College I built a website for Sage Journey, a long-term care agency. Worked with the founder to build a website to their specifications

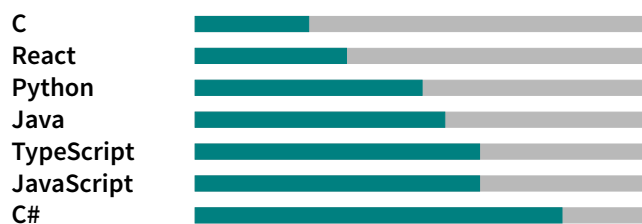

April 2021 **APPLICATION** *Red River College*
Final Project

Java, XML

Course: Mobile Application Development

Creating an app to help people find someone to boost their car when the battery is dead. Used Cloud Firestore to store user accounts as well as help requests with location data.

software skills

volunteer

2019-2020 **Siloam Mission**

- Received and processed donations
- Assisted in the preparation of meals
